**Re: #07RFP55213K-DJ – Standby Professional Services for Facilities
Related Planning, Design, Engineering and Assessments-Landscape
Architecture, Civil Engineering and Land Surveying Services**

Dear Proposers:

Attached is one (1) copy of Addendum two , hereby made a part of the above referenced **#07RFP55213K-DJ – Standby Professional Services for Facilities Related Planning, Design, Engineering and Assessments-Landscape Architecture, Civil Engineering and Land Surveying Services.**

Except as provided herein, all terms and conditions in the **#07RFP55213K-DJ – Standby Professional Services for Facilities Related Planning, Design, Engineering and Assessments- Landscape Architecture, Civil Engineering and Land Surveying Services** referenced above remain unchanged and in full force and effect.

Sincerely,

Donna Jenkins

Donna Jenkins
Assistant Purchasing Agent

This Addendum forms a part of the contract documents and **modifies** the original RFP documents as noted below:

Question: Page 3-2 of the RFP indicates that the Land Surveying Services will be awarded as an independent contract by the County for surveying services. However, the RFP requirements are specifically written for the other category (Landscape Architecture and Civil Engineering) as if all services will be intertwined. Are we allowed to just submit on the surveying portion of this RFP only? If so, how do we handle addressing the RFP requirements correctly when they're only written from an engineering and landscape architecture perspective (as opposed to surveying)?

Answer: The Landscape Architecture, Civil Engineering & Land Surveying RFP must include all services listed on page 3-2. Firms that are not able to provide the services from each of the three disciplines listed above may enter into a joint venture so that the County receives services from a team that can provide services listed in A). Landscape Architecture and Civil Engineering and services listed in B). Land Surveying.

Revision of Section 3, Proposal Requirements, Page 3-2, Scope of Work is revised as follows:

3.3 SCOPE OF WORK

B. Land Surveying Services to be awarded include but are not limited to the following:

1. Conventional Topographic Survey
2. Survey of property lines
3. Survey and identification of site features including trees
4. Aerial Survey & Photography
5. Façade Surveying
6. Retaining wall surveying
7. Utility Surveying
8. All surveys will be referenced to U.S. Department of Interior Geological Survey, bench marks shall reference Coastal Geodetic Survey based elevations, and, cross-reference shall be to Fulton County Geographic Information System.

#07RFP55213K-DJ – Standby Professional Services for Facilities Related Planning, Design, Engineering and Assessments-Landscape Architecture, Civil Engineering and Land Surveying Services
Addendum No. 2
